

# Welcome to our latest fires guide...

... As well as being a source of warmth, a well chosen fire can become a real feature in a room. With so much choice available, it can be difficult to know which type of fire will suit you and your home, and this is where we can help. This catalogue is intended to be an inspirational and helpful tool that provides you with all the information you need to make the right choice. We can advise you on which fuel source will best suit your needs, and the correct fire for your chimney specification.

When considering the physical demands of your fire, finding one that suits your taste is crucial. From traditional to ultra-modern contemporary, Stearn offers a wide choice of electric, gas and solid fuel fires and stoves in a range of different colours and styles to create the mood, atmosphere and look you want. And if you can't decide which fire you prefer, we also offer a range of complete suites to help make your decision easier!

Whilst this guide shows a comprehensive selection of fires stocked and fully available from Stearn, the complete brand range is also fully available upon request.

Just ask

#### E&OE / Data

Although we strive to keep the content of this catalogue as accurate as possible, we cannot be held responsible for any errors or omissions.

The information within this catalogue has been collated from manufacturers data and may be subject to change without notice.

# Contents

| <b>3-37</b> Gas |       |

# Guide to Symbols

LPG
There is a conversion kit available (possibly supplied) to allow the use of LPG in non natural gas areas

Remote Control
Allows the control of
the appliance from the
comfort of your seat

Slide Control
Easier control of
the gas flow through
the appliance

Prefabricated Flue (Deep Flue) Suitable for most fires

Pre Cast Flue (Slimline Flue) Suitable for Slimline fires

Balanced Flue
These use twin
horizontal pipes to
draw air in & out

Brick Built Chimney (Deep Chimney) Suitable for all fires

Top or Rear Flue You are able to attach a flue to a solid stove either way depending on practicality of installation

**Top Flue**You are only able to attach a solid stove to a top flue

Efficiency
This will give you a guide
to the running costs of
your gas fire. The higher
the number the less your
fuel bill will be & the
smaller your carbon
footprint

Warranty
Manufacturers service
cover to give you
peace of mind

Catalytic Converters Fires using Catalytic Converters where there are no flue or chimney still require a minimum room size.

**DEFRA Approved** 

Defra-exempted stoves can be used in designated Smoke Control Areas where wood burning is otherwise illegal.

Smoke Control Areas locations can be found on www.uksmokecontrolareas.co.uk

# Display & Demonstrate Range

has been created to help drive sales directly through the independent retailer channel.

All models are available at a competitive price for outlets committing to in-store displays, rather than internet sales.

The range also comes with an extended guarantee, allowing retailers to offer their customers an extra edge of exclusivity.

#### **Valor Centre Guarantee**

Bearing the hallmark of all Valor fires, these exclusive models combine the ultimate in flame realism with high heat efficiency and engineering excellence, as well as boasting a distinctive range of aesthetic options.

When you purchase one of these fires, you will get an impressive three year guarantee so that you can rest assured that in the event of anything going wrong, we're right behind you.

#### **Fuel Bed Options**

Some fires are available with the option to specify your fuel bed & create a look to suit your home.

# What is **Valorcentre**?

Valor understand that buying a gas or electric fire is a considered purchase and one that requires expert advice and guidance to find the model that best suits your needs. In order to provide you with a superior sales experience, Valor have created an exclusive network of Valor Centres throughout the UK.

As well as advising and guiding you every step of the way throughout your purchasing process, from selecting the right fire for your needs, to helping you arrange safe installation.

Valor Centres offer an exclusive range of gas and electric fires that are not available anywhere else on the high street.

Bearing the hallmark of all Valor fires, these exclusive models combine the ultimate in flame realism with high heat efficiency and engineering excellence, as well as boasting a distinctive range of aesthetic options.

But that's not all. When you purchase from one of our Valor Centres, we will reward you with an impressive THREE YEAR guarantee so that you can relax assured that in the event of anything going wrong, we're right behind you.

Only approved Valor Centres can offer a 3 year Guarantee with your purchase. This is because we have the utmost confidence in these retailers' ability to recommend, supply and install the correct fire in a safe and secure way.

The

# INSPIRE

COLLECTION

#### Discover 'Inspire', a new collection of landscape gas fires from Valor

Combining design inspiration with innovative performance features and easy servicing, Inspire delivers the perfect package for your home.

Choose from a wide range of design choices, each delivering quality, flexibility and all the atmosphere of a standout feature fire in your living room.

#### Design flexibility

You can choose from a long list of designs, with 500, 600 or 800 models each available with a choice of controls, liners, log, trim effect and suites.

This includes two fuel beds, five ceramic back liners, two trim designs (each in a choice of four colours) and a choice of two suites for each model. Inspire gas fires from Valor can even be purchased with a frameless kit which requires no trim.

#### Flexible installation

The Inspire collection can be wall-mounted with a frameless kit or choice of trim, or incorporated within a choice of surround suites, each made from natural Portuguese limestone, to create a stunning focal point in the home. The fires are glass fronted and you can choose the fuel bed and ceramic back liner, giving you exactly the design you want to suit your living room. Even servicing is made easy, thanks to the way in which the whole burner assembly slides out.

# What is **CDimplex** opti-myst°?

Opti-myst® is a revolution in electric fire technology.

Using unique state-of-the-art technology, we have created the most realistic flame and smoke effect ever seen in an electric fire - an illusion so effective that we believe it is difficult to distinguish it from the real thing.

The fully 3-dimensional effect uses established ultrasonic technology adapted from commercial applications to create an ultra fine water mist that is illuminated to create the 'flames' and the 'smoke'.

The result? An effect that surpasses all expectations for realism in an electric fire. See it and believe it!

### PART OF OUR

COLLECTION

COLLECTION

#### What is Display and Demonstrate?

The Display and Demonstrate range has been created to help drive sales directly through the independent retailer channel.

All models are available at a competitive price for outlets committing to in-store displays, rather than internet sales.

The range also comes with an extended guarantee, allowing retailers to offer their customers an extra edge of exclusivity.

The Display & Demonstrate range is available to Dimplex Centre and Dimplex Centre Plus retailers. Speak to your regional manager to find out more.

CELSI

### What is CELSI Electriflame?

Electriflame uses advanced 3D technology to create one of the most realistic flame pictures found in any electric fire today.

Relax and enjoy the smoky, soothing flames and be amazed by the depth of the fuel effect. What's more, the high efficiency LED lights used to create the flame picture means that you benefit from low running costs too.

Electriflame comes with a variable flame dimmer with four settings, and two heat levels, as well as a flame effect only option. All this can be operated via the remote control handset or using the manual controls on the appliance

## What is **CDimplex Opti-V**?

#### The most realistic flame effect you've ever seen

Following the success of the impressive Optiflame and Opti-myst flame effect fires, Dimplex is excited to announce the launch of the simply incredible Opti-V – the most unbelievable flame effect yet.

Using a unique and patent protected combination of real fire footage displayed on a High Definition LCD screen and a clever illusory technique, the Opti-V renders scenes of flickering flames dancing on a vertical fuel bed with an almost three dimensional depth of field.

With the addition of an audio element of crackling logs, the illusion of a real fire – and all at the running cost of a light bulb!

But don't take our word for it. See the effect for yourself at www.dimplex.co.uk/opti-v

We think you'll be amazed!

### What is **Dimplex** Optiflame?

Quite simply, Optiflame® is a remarkable innovation, unique to Dimplex, that provides a home with the most advanced and realistic electric flame effect in a wide variety of fires and fireplaces.

An Optiflame® fire guarantees instant ambience anywhere in the home and can be used all year round as the flame effect can be operated independently of the heater. Running just the flame effect costs less than a penny an hour. Perfect also for hotels and offices to brighten up rooms and reception areas.

Design flexibility is not the only benefit: Optiflame® fires are simplicity itself to install and plug into any standard outlet. No exterior wall access is required; no venting; no fuel pipes or expensive installation, just 'plug and

Naturally as you would expect from Dimplex, Optiflame® fires also carry international electrical approvals for total user peace of mind. And as for maintenance, all that is required is the occasional replacement of the standard light bulbs.

## What is $\sqrt{alor} \supset IM \equiv N \leq ION?$

The Dimension range of electric fires uses cutting edge technology to create the most authentic 'real fire effect' redefining the market for fuel effect fires.

The crucial elements of a real fire have been replicated; glow, so that the fire communicates warmth; authentic flame effect, providing colour and movement and fuel effect depth.

It is a totally new way of enjoying the atmosphere that only a real fire can create - at the press of a button.
