# Award Yourself the Very Best

Welcome to our extensive range of fireplaces, where we believe we have a fireplace for any room.

We are proud to celebrate over 30 years in business and our aim is to provide the latest in design fireplaces that will enhance your home for many years.

We have received numerous awards over the years for our design, quality, and service; in addition to the extensive list below we were proud to be awarded *The Lifetime Achievement Award* in 2006 by our industry and *The Horizon Award for Innovation* in 2009.

**What we do** - We are British designers and manufacturers of solid timber fireplace surrounds, free standing fireplace suites, beams in various finishes, tiled back panels, hearths and full chambers to suit all types of appliances. We offer a complete bespoke service - just look for this symbol throughout our catalogue  so we can make our designs to your specifications - in a wide choice of materials and finishes and we even offer a colour match service. We also have a range of multi fuel and gas stoves. See our separate brochure.

OER rely on the skills of our craftspeople who have served an apprenticeship and received a wealth of training, so that your fireplace is a work of art and handmade to your requirements using the finest sustainable materials.

Our fireplace collection is available through our network of approved stockists throughout the U.K, who have the knowledge and expertise to guide you through our full product range, design choices including our full bespoke service that is at your fingertips. Commissioned designs are welcome.

Please also see our **OER Stove Collection Brochure**.

# SPECIFICATIONS

To view the complete selection of all our designs past and present, visit our website [www.oerfireplaces.com](http://www.oerfireplaces.com) and click on the virtual catalogue icon.

Knots, burrs, figuring and varying grain patterns in the same piece are all natural and inherent factors to solid timber and should be expected. This produces a unique product to enhance your room. Cracking may appear in tiles. This is normal and inherent. All sizes are approximate and a tolerance of up to 5mm should be allowed for machining. Limestone is a natural material and as such may vary in shade slightly to pictures shown. Limestone/marble may also contain natural fossils, fissures, and darker graining. We reserve the right to make changes to profiles, and design details on all fireplaces, beams, shelves, and components.

- A = shelf
- B = overall height
- C = base
- D = opening height
- E = opening width
- F = shelf depth
- G = base depth

Most rebates are standard 3" to 1" unless shown with tiles. Please specify if any other sizes required.
